Professional Summary

BSc IT graduate and Full Stack & AI Automation Engineer who builds, deploys and secures AI-driven web applications in production. Proficient in React, Node.js, Express, Python, PostgreSQL, REST APIs and authentication; experienced in LLM integration, AI agents, n8n automation, AI-assisted development with Claude Code and Codex, and AWS cloud operations.

Technical Skills

Frontend: React 18, React Router 6, Vite 5, Tailwind CSS 3, Recharts, Axios, Responsive UI
Backend: Node.js 24, Express 5, FastAPI, Sequelize 6, REST APIs, JWT, OAuth 2.0 / 2.1, RBAC, Worker Threads, Pandas
Databases: PostgreSQL 16 (Row-Level Security, Multi-Tenancy, Migrations, Indexing), MySQL
AI & Automation: Claude API, Gemini API, LangGraph, MCP Servers, AI Agents, n8n, Composio, Claude Code, Codex
Cloud & DevOps: AWS (EC2, Elastic IP, AMI, Security Groups, IAM), Nginx, HTTPS/TLS, DNS, PM2, Linux, Git, GitHub
Integrations: Amazon SP-API, Shopify Admin API, Zoho Books API, Zepto Seller Portal, Google Workspace APIs (Drive, Sheets, Docs, Gmail, Calendar, Meet), Logistics & Payment APIs (Velocity, Eshopbox, Return Prime, Cashfree), Tally (Excel / XML)

Experience

Full Stack & AI Automation Engineer April 2026 – Present
Colonel (agent.accountant) *Mumbai, India*

- **AI Agents:** Architect and ship 30+ AI agents in GST, Reconciliation, Marketplace Sales, Receivables, Invoice Processing and CFO Reporting suites for 20+ D2C brands on React 18, Node.js 24 / Express 5 and Python 3.11.
- **Data Layer:** Engineered a multi-tenant PostgreSQL 16 data layer: merged per-brand databases into one schema with brand-scoped Row-Level Security, Sequelize migrations, idempotent upserts, JWT + Google OAuth 2.0 and RBAC.
- **Cloud Infra:** Own production infrastructure: migrated the live app to a new AWS account (EC2, Elastic IP), custom domain, Nginx reverse proxy with HTTPS/TLS, hardened security groups and SSH, PM2, cron backups and AMI rollback.
- **Integrations:** Built API connectors for Amazon SP-API, Shopify, Zepto, Zoho Books, logistics/payment providers and Google Workspace, plus LLM + n8n pipelines (Gemini primary, Claude fallback) that extract documents into Tally.

Web Development Intern July 2025 – November 2025
GAOTek Inc. *Remote*

- **Web Development:** Built web applications in HTML, CSS and JavaScript for international teams; ran e-commerce workshops.

Projects

agent.accountant – AI Accounting Automation Platform agent.accountant (Live)
React 18, Node.js 24, Express 5, Python 3.11, PostgreSQL 16, AWS, n8n, LLMs github.com/tech-colonel/Colonel-AWS

- **Agent Suites:** Multi-tenant platform for a CA firm serving 20+ D2C brands with 30+ agents in suites: GST Compliance (GSTR-1, 2A/2B, 3B vs Books, multi-state, e-invoice), Bank & Credit Card, Marketplace Sales (16 channels incl. Amazon, Flipkart, Myntra, Blinkit, Zepto, Shopify), Receivables & Settlements and Invoice/PO-to-Tally.
- **Reco Engine:** Python reconciliation engine (Pandas, pdfplumber, Tesseract OCR) as a multi-process pool behind the Express API, with deterministic multi-pass matching, Excel output and worker-thread offloading for large workbooks.
- **Integrations:** Pipelines from Amazon SP-API, Shopify, Zepto, Velocity, Eshopbox, Return Prime and Cashfree, tracing every order through settlement to the bank receipt.
- **AI Layer:** "Ask Colonel AI" assistant over a read-only, RLS-scoped SQL tool; Gemini 2.5 Flash with Claude fallback for document extraction; LLM mapping of new GSTR-2B layouts; self-learning bank and invoice masters.
- **Platform:** Role-based workspaces (admin, accountant, brand, developer), no-code workflow engine with Excel formulas, Google Drive intake, compliance tracker and a Tally XML/HTTP connector.

AICFO – AI CFO Copilot for D2C Brands github.com/tech-colonel/Colonel-AICFO
Python 3.11, FastAPI, LangGraph, SQLAlchemy 2, React 18, Vite 5, PostgreSQL 16, MCP, OAuth 2.1, Render

- **Financial MIS:** Turns Tally Day Book, Chart of Accounts and Trial Balance exports (or live Tally XML sync) into a P&L, Balance Sheet and Cash Flow that reconcile, with drill-down from statement line to ledger to voucher.
- **AI Copilot:** LangGraph agent graph (router, guardrail, validated SQL agent, advisory, visualizer, synthesizer) streamed over SSE, plus an AI spreadsheet (Univer) where the agent loads live data, analyses it and exports to Excel.
- **Claude MCP:** Connected to Claude as a custom connector: remote MCP server with OAuth 2.1 (dynamic client registration, PKCE), PII redaction, rate limiting and company-level isolation, so clients query their books inside Claude.
- **Analytics:** Multi-channel sales and GST analytics, trade margin, pivots, forecasting, alerts and scheduled report packs.

TrustLense AI – Content Trust Analyzer Academic / Capstone Project
Node.js, Express 5, EJS, MySQL, PHP, AI APIs, FFmpeg

- **Trust Scoring:** AI system scoring the trustworthiness of web, text and media content via similarity and credibility signals.

Education

Nagindas Khandwala College Mumbai, India
Bachelor of Science in Information Technology (BSc IT) *Graduated 2026 — CGPA: 8.50 / 10*

Certifications

IIT Bombay: Python, PostgreSQL, HTML, Java, Android (Kotlin), Intro to Computers | Internship: Bootstrap, PHP & MySQL
Google & Anthropic: Android Developer Virtual Internship – Google for Developers | Claude Code in Action – Anthropic
